

# CENTER FOR INTERPROFESSIONAL HEALTHCARE EDUCATION

---

The Center for Interprofessional Healthcare Education supports innovative, collaborative learning to develop healthcare professionals who can provide evidence-based, coordinated, person- and client-centered healthcare. The Center enables faculty, students and community partners to learn together, identify effective and efficient delivery options and engage in team practice that meets the challenges of 21st-century healthcare.

Visit the Interprofessional Healthcare (<https://www.qu.edu/academics/centers-and-institutes/center-for-interprofessional-healthcare-education/>) page on our website for more information.
