

BACHELOR OF ARTS IN PHILOSOPHY

Philosophy is an ancient project, but one that continues to evolve as humans respond ethically to challenges in the coming century: peace, environmental sustainability, globalization, technology, the needs for health and security, and the yearning for love and justice. The philosophy major is structured to equip students with the conceptual tools and techniques of inquiry necessary to arrive at thoughtful responses to the world's challenges through their knowledge of different eras, themes and figures in the history of philosophy, both inside and outside the Western tradition.

Students learn to reflect critically, ethically and holistically on the significance of these tools and techniques to their own lives and to the world they are about to inherit. Students develop analytical and research skills in philosophical inquiry as they explore the history of philosophy and the current status of the main problems in epistemology, metaphysics and ethics.

Students who major in philosophy develop competence in reasoning techniques, and will appraise the validity (and invalidity) of arguments, expose hidden assumptions, recognize fallacies and make a precise and coherent case in support of their own views. Philosophy graduates will be skilled in combining and synthesizing information from a wide range of sources, and in reflecting on their own thinking and experience. Students complete the major with a senior seminar in which they isolate and define a specific philosophical question that they explore in a senior thesis.

The BA in Philosophy requires a minimum of 120 credits for degree completion.

Students must complete the curriculum listed below and must obtain a minimum grade of C in all philosophy courses. No more than 6 credits of independent study (PL 299, PL 399) may count toward completion of the major.

Please see footnotes for additional information.

¹ All CAS students must complete one modern language through the 102 level. Students who have taken a language in high school should take the modern language placement test for that language. Placement scores at the 201 level or higher demonstrate language competency and will place out of the language requirement.

² In addition to philosophy courses, a student may count up to two of the cognate courses toward completion of the philosophy major.

Shown below is one of many possible paths through the curriculum. Each student's individual academic plan is crafted in consultation with their academic adviser.

5. **Communication:** Ability to communicate effectively one's own views and judgments in precise, reasoned, coherent and persuasive writing and speaking.

Admission Requirements: College of Arts & Sciences

The requirements for admission into the undergraduate College of Arts & Sciences programs are the same as those for admission to Quinnipiac University.

Admission to the university is competitive, and applicants are expected to present a strong college prep program in high school. Prospective first-year students are strongly encouraged to file an application as early in the senior year as possible, and arrange to have first quarter grades sent from their high school counselor as soon as they are available.

For detailed admission requirements, including required documents, please visit the Admissions (<http://catalog.qu.edu/general-information/admissions/>) page of this catalog.

Student Learning Outcomes

Upon completion of the program, students will demonstrate the following competencies:

1. **Knowledge:** Demonstrate understanding of the major traditions, themes and figures in metaphysics, epistemology and ethics across global history and as they emerge in specific cultures, regions or nations of the world.
2. **Reflection:** Ability to reflect critically, ethically and holistically on human problems affecting their lives (e.g., peace, environmental sustainability, globalization, technology, health, death, social and political justice), and to isolate and define specific philosophical questions for further inquiry.
3. **Critical Thinking:** Ability to use inquiry and critical thinking techniques for detecting fallacies and for appraising the validity of arguments.
4. **Synthesis:** Skills of creatively synthesizing new ideas, based on knowledge from a diverse range of historical, regional and cultural perspectives.
