

DIGITAL BADGE IN HEALTHCARE QUALITY AND PATIENT SAFETY

Program Contact: Angela Mattie (angela.mattie@qu.edu) 203-582-3630

The Healthcare Quality and Patient Safety credential develops interdisciplinary skills to evaluate the quality and safety of healthcare programs and the comparative value of healthcare offerings for business consumers. The program focuses on evaluating patient safety and measures of proficiency in safety for healthcare industry. Successful completion of the micro-credential program criteria includes certification by the Institute of Healthcare Improvement, an industry certification valuable to business, healthcare and legal professionals.
