BADGE IN HANDS-ON HIPAA COMPLIANCE RISK MANAGEMENT

Program Contact: Frederick Scholl
(frederick.scholl@qu.edu) 203-582-7394

This badge introduces students to the HIPAA Privacy, Security and Breach Notification Regulations. The focus is on regulations and compliance. Learning Objectives: (1) Be able to list the principal requirements of the HIPAA Privacy Rule, Security Rule and Breach Notification Rule; (2) Be able to evaluate security, privacy and breach notification compliance of an organization using an automated tool. Students will be able to assess the HIPAA Privacy, Security and Breach Notification compliance of their own organizations or a model healthcare organization described within the course. Students will get hands-on experience using cloud-based security and privacy assessment tools.

This badge is offered as an elective (CYB 610) to students within the MS Cybersecurity degree program.
