DEPARTMENT OF SOCIAL WORK

Program Contact: Carol R. Awasu (carol.awasu@qu.edu) 203-582-6433

The Master of Social Work (MSW) program at Quinnipiac University prepares social workers for specialized practice in health and mental health through a curriculum that focuses on clinical and organizational practice, experiential learning, and interprofessional teamwork. Guided by respect for human dignity and a commitment to social justice, the MSW program uses a person-in-environment framework to ready students for professional practice in dynamic contexts.

The program prepares students for achievement and leadership in the field of social work. The curricular approach of the MSW program is unique in that it directly engages students in interprofessional education and the health care team approach.

Quinnipiac's MSW program embraces the university’s commitment to the development of professional expertise through practice experience. The two field placements offer students the opportunity to practice skills learned in the classroom in real-world settings. A seminar that supports the student in integrating academic and fieldwork is held monthly. Upon completion of the MSW degree, the student will have at least 1,000 hours of professional preparation in the field.

Students entering Quinnipiac as undergraduates who are interested in the social work program also have the option of pursuing a dual-degree bachelor's-master's program. There are two options: the Accelerated Dual-Degree BS in Health Science Studies/Master of Social Work (3+2) (http://catalog.qu.edu/health-sciences/biomedical-sciences/hss-msw/) or the Accelerated Dual-Degree Bachelor's/Master of Social Work (3+2) (http://catalog.qu.edu/graduate-studies/health-sciences/accelerated-ba-msw/) program. Graduate students in the MSW program also have the option of pursuing a dual-degree JD/MSW (http://catalog.qu.edu/graduate-studies/health-sciences/jd-msw/).

Additional program costs:

As a clinical education program, the MSW program requires some expenses that go beyond standard university tuition and fees:

a. **Clinical/Fieldwork Education Travel** (gas, parking, public transportation): You are responsible for the costs associated with travel to and from field internships. Costs – variable.

b. **Background Check**: Quinnipiac University and its clinical affiliates require that all students undergo a criminal background check, through the university vendor, prior to beginning classes (University Criminal Background Check Policy (https://catalog.qu.edu/university-policies/background-checks/)). Please note that placement sites may require that students participate in the agency’s background check, in addition to the one required by the university.
   i. University background check cost – $63 for all domestic addresses for the past 7 years or $158 for students who have resided in New York state in the last 7 years due to NY state surcharge.
   ii. Some students may be required to do an annual recheck one year after the initial background recheck. Cost – $32 per annual recheck.

c. **Drug Screening**: Some sites require physical and/or substance use drug screens as well as fingerprinting. MSW students are expected to comply with all agency requirements prior to beginning field internships.

d. **Liability Insurance**: All students have liability insurance coverage through the university, free of charge, while performing required clinical activity. Students may choose to purchase additional coverage at their own expense.

e. **EXXAT and APPROVE**: Students enrolled in the MSW program must enroll in EXXAT and APPROVE.
   i. **EXXAT** is the clinical tracking and assessment program used by the School of Health Sciences. Cost – one-time payment of $150 per student enrolled in the MSW program (students are responsible for this cost).
   ii. **APPROVE** is the program within EXXAT that tracks all student health and safety records, provides documentation to prospective clinical sites, and provides notification of impending expiration dates. Cost – $35 for first year, $10 per year after.

**Mission Statement**

The mission of the Quinnipiac University MSW program is to prepare social workers for specialized practice in health and mental health through a curriculum that focuses on clinical and organizational practice, experiential learning, and interprofessional teamwork. Guided by respect for human dignity and a commitment to social justice, the MSW program uses a person-in-environment framework to ready students for professional practice in dynamic contexts.

**MSW Program Values**

The MSW program’s core values reflect the NASW Code of Ethics for Social Workers: service, social justice, the dignity and worth of the person, the importance of human relationships, integrity and competence.

**MSW Program Goals:**

The MSW program has the following five goals:

a. Prepare students to be competent, ethical social workers in a variety of health and mental health settings.

b. Prepare students to engage in anti-racist and anti-oppressive clinical and organizational social work practice.

c. Prepare students to advocate for equity and social justice at all levels of social work practice.

d. Prepare students to integrate social work perspectives within interprofessional collaborations and across systems.

e. Promote lifelong learning and professional development for students, alumni and social work colleagues.

- Accelerated Dual-Degree BS in Health Science Studies/MSW (3+2) (http://catalog.qu.edu/health-sciences/biomedical-sciences/hss-msw/)
- Accelerated Dual-Degree Bachelor's/MSW (3+2) (http://catalog.qu.edu/graduate-studies/health-sciences/accelerated-ba-msw/)
- Accelerated Dual-Degree JD/MSW
Social Work (SW)

SW 500. Generalist Field Education Practicum I. 3 Credits.
This is the first of two field placements. The generalist field placement is offered in the generalist year for 16 hours a week for a minimum of 400 hours. In addition to the hours required in the agency placement, there is a requirement to attend a Field Seminar on campus throughout the months of the placement.
Corequisites: Take SW 501.
Offered: Every year, Fall

SW 501. Social Work Practice I: Social Work Practice with Individuals and Families. 3 Credits.
This is the first semester of the generalist practice sequence. Social Work Practice I provides an introduction to social work practice. The courses present the knowledge and skills necessary for competent generalist social work practice with individuals and families. Skills taught in this course are interviewing, problem identification, problem exploration, formulating the presenting complaint, data gathering, differential assessment, planning, beginning intervention, termination, and evaluation.
Corequisites: Take SW 500. Take SW 511
Offered: Every year, Fall

SW 502. Generalist Field Education Practicum II. 3 Credits.
This is the second of two field placements. The generalist field placement is offered in the generalist year for 16 hours a week for a minimum of 400 hours. In addition to the hours required in the agency placement, there is a requirement to attend a Field Seminar on campus throughout the months of the placement.
Corequisites: Take SW 500.
Offered: Every year, Spring

SW 503. Social Work Practice II: Social Work Practice with Groups, Organizations and Communities. 3 Credits.
This is the second semester of the generalist practice sequence. Social Work Practice II provides an introduction to social work practice. The courses present the knowledge and skills necessary for competent social work practice with groups, organizations and communities. There is special attention given to vulnerable and disenfranchised populations.
Prerequisites: Take SW 501.
Corequisites: Take SW 502.
Offered: Every year, Spring

SW 504. Social Welfare and Social Policy. 3 Credits.
This course provides students with a foundation understanding and appraisal of social welfare policies and programs in the United States, and the historical and contemporary forces that have shaped their development. It covers the formation of the social work profession and its role in the creation and implementation of social policy and its tradition of advocacy, social action, and reform. Students take steps to engage in policy practice to advance social and economic justice.
Offered: Every year, Fall

SW 505. Social Work Research. 3 Credits.
The purpose of this course is to provide the generalist MSW student with a solid foundation in social work research, with an emphasis on evidence-based practice. As consumers and producers of research, social workers need to understand the core concepts of scientifically sound and rigorous research. Students become prepared to critically evaluate the research and learn to synthesize empirical research into a systematic review. The impact of bias in research is identified.
Offered: Every year, Fall

SW 507. Issues of Diversity and Oppression. 3 Credits.
This course examines the dynamics of racism and other forms of oppression in society and within us, and how those dynamics are intertwined with policy and practice. The course places oppression in the economic, political and social context of the U.S. Students analyze racism, sexism and ethnocentrism as they operate at the individual, community and institutional levels. The course aims to increase self-awareness and cultural humility for social work practice.
Offered: Every year, Spring

SW 508. Psychopathology. 3 Credits.
This course provides students with extensive knowledge of the major forms of emotional illness and their treatment. Students develop competence in diagnosis by mastering the currently accepted diagnostic code (DSM-V). They develop competence in treatment planning through awareness and understanding of the most modern and accepted treatments for each major category of mental illness.
Prerequisites: Take SW 500, SW 501.
Offered: Every year, Spring

SW 511. Human Behavior in the Social Environment I: Theories for Practice for Individuals and Families. 3 Credits.
Using a person-in-environment framework, this course provides an understanding of the relationship between the major theories of individual and family functioning among biological, social, psychological and spiritual dimensions as they affect and are affected by human behavior and family life. Students examine the role that culture and intersectionality play in human development, within the context of biological and social systems, psychodynamic, ecological, social constructionist, humanistic, cognitive and behavioral theories.
Offered: Every year, Fall

SW 512. Human Behavior in the Social Environment II: Theories for Groups, Organizations and Communities. 3 Credits.
Using an ecosystems framework, this course provides an understanding of the major theories that explain the structures, functions, and dynamics of groups, organizations and communities. Students master core ideas of theories that provide the conceptual base for engaging in interventions that occur in the macro social environment. The course focuses on utilizing theories that promote empowerment of key stakeholders within groups, organizations and communities and that address social and economic injustice.
Offered: Every year, Spring

SW 580. Clinical Assessment and Diagnosis. 3 Credits.
This course is designed to provide students with extensive knowledge of the major forms of emotional illness and their treatment. Students will develop competence in diagnosis by mastering the currently accepted diagnostic code (DSM-V). They will develop competence in treatment planning through awareness and understanding of the most modern and accepted treatments for each major category of mental illness. Strength-based approaches to mental health care is emphasized.
Prerequisites: Take SW 500 SW 501
Offered: As needed
SW 600. Specialized Practice Field Education Practicum in Health/Behavioral Health I. 4 Credits.
This specialized practice field placement is the first of two field placements and offers a social work experience focused on health/behavioral health in a variety of settings. Students complete 24 hours a week for a minimum of 600 hours. In addition to the hours required in the agency placement, there is a requirement to attend a monthly Field Seminar.
Prerequisites: All generalist curriculum courses.
Corequisites: Take SW 601.
Offered: Every year, Fall

SW 601. Social Work Practice III: Specialized Clinical Social Work Practice. 3 Credits.
This course focuses on clinical perspectives associated with social work in various fields of practice, particularly behavioral health consultation in the health care system. Skills to be acquired include how to make comprehensive psychosocial assessments and treatment plans for clients according to particular treatment perspectives. Multicultural applications for practice are incorporated. Attention is given to developing students’ ability to apply ethical standards to clinical practice.
Prerequisites: All generalist curriculum courses.
Corequisites: Take SW 600.
Offered: Every year, Fall

SW 602. Specialized Practice Field Education Practicum in Health/Behavioral Health II. 4 Credits.
This specialized practice field placement is the second of two field placements and offers a social work experience focused on health/behavioral health in a variety of settings. Students complete 24 hours a week for a minimum of 600 hours. In addition to the hours required in the agency placement, there is a requirement to attend a monthly Field Seminar.
Prerequisites: All generalist curriculum courses.
Corequisites: Take SW 603.
Offered: Every year, Spring

SW 603. Social Work Practice IV: Specialized Organizational Social Work Practice. 3 Credits.
This course is designed to expand students’ knowledge and understanding of human service organizations and to provide approaches for designing and managing programs. Students are exposed to various organizational and management theories and practices. In addition, emphasis is placed on organizational practice within the field of behavioral health in primary care settings.
Prerequisites: All generalist curriculum courses and SW 601.
Corequisites: Take SW 602.
Offered: Every year, Spring

SW 604. Evaluation Research Work Programs and Practice. 2 Credits.
This course focuses on the necessity of program evaluation for agency accountability and for improving services for clients. The course provides an overview of the methods of program evaluation and builds upon learned research knowledge for elaborating on the conceptual, methodological and administrative aspects of evaluation research. Students gain knowledge on how to utilize evaluation studies to inform their own practice at the micro and mezzo levels.
Prerequisites: All generalist curriculum courses.
Offered: Every year, Fall

SW 605. Integrative Seminar/Capstone Project. 2 Credits.
This course requires students to integrate core areas of generalist and specialized practice knowledge to a current issue relevant for social work practice. Students research human behavior theory, innovative evidence-based practice, policy and advocacy, as well as the latest data on health/behavioral health promotion to disseminate strategies for ameliorating the negative impact of a social problem on a specific marginalized population.
Prerequisites: All generalist curriculum courses.
Corequisites: Take SW 602, SW 603.
Offered: Every year, Spring

SW 611. Social Work in Health-Related Settings. 3 Credits.
This specialized practice MSW course focuses on the roles and functions of social workers serving clients in a rapidly changing health and behavioral health care industry. A strengths-based, family-centered and culturally sensitive approach to practice in a variety of health and behavioral health care settings is presented.
Prerequisites: All generalist curriculum courses.
Corequisites: Take SW 602.
Offered: Every other year, Spring

SW 612. Social Work Practice in Child Welfare and Behavioral Health Settings. 3 Credits.
This specialized practice social work course focuses on the characteristics, strengths and service needs of families and children in the child welfare, behavioral health and juvenile justice systems. It examines issues and builds practice skills related to those facing separation, reunification, effects of traumatic experiences, and mental health concerns.
Prerequisites: All generalist curriculum courses.
Offered: Every other year, Spring

SW 613. Social Work Practice in Schools. 3 Credits.
This specialized practice social work course presents knowledge and skills for engaging in social work practice from preschool through high school in educational settings across the continuum from direct practice, to school and district level programming and policy, to partnering with community stakeholders to advance programming and policy.
Prerequisites: All generalist curriculum courses.
Corequisites: Take SW 602, SW 603.
Offered: Every year, Spring

SW 614. Social Work Issues in Health and Illness. 3 Credits.
This course discusses the importance of cultural and socioeconomic factors in the creation of major health disparities in the United States. Physiological, psychological, social and environmental factors are considered in relationship to cultural and socioeconomic factors in explaining both etiology and consequences of disease. The framework is applied to common diseases in the life course.
Prerequisites: All generalist curriculum courses.
Offered: Every other year, Spring

SW 622. Multicultural Practice in Communities and Organizations. 3 Credits.
This specialized elective course provides students with an understanding of multicultural practice in organizational and community settings. Students examine concepts and techniques of multicultural practice; consider and evaluate relevant strategies and tactics that promote multiculturalism, including community capacity building, empowerment processes, intercultural communication, diversity training and cross-cultural supervision, and apply them to both community organizing and community-based agency practice settings.
Prerequisites: All generalist curriculum courses.
Offered: As needed, Fall and Spring
Offered: As needed, Fall and Spring

SW 624. Rape Crisis Victim Advocacy. 3 Credits.
This class prepares students to be certified to be rape crisis victim advocates and peer educators. The class is centered on the victim’s perspective on sexual assault, sexual abuse, as well educating others about helping rape survivors. The course will cover basic information about sexual violence and rape myths, the protocol for reporting rape in different venues (e.g., on campus, police, hospital, rape crisis center), and methods for assisting survivors.

Offered: As needed, Fall and Spring

SW 630. Clinical Social Work with Military Service Members and Families. 3 Credits.
This specialized clinical elective provides conceptual theories of best practice approaches with, and research findings on working with service members and their families, with a primary focus on service members who have served in combat. Topics covered include strengths-based assessment and core evidence-based treatment interventions, and prevention strategies for working with service members and their families. The impact of working with traumatized individuals and families on social workers is reviewed with recommendations for self-care.

Prerequisites: All generalist curriculum courses.

Offered: As needed, Spring and Summer

SW 633. Clinical Social Work Practice and Stress Management Techniques. 3 Credits.
The psychological, physiological and sociocultural aspects of stress are taught in this specialized clinical practice course. Stress management techniques are explored didactically and experientially. The purpose of this course is to teach students to understand the cognitive, affective and neurobiological impact of stress. Specific interventions to address traumatic stress also are discussed.

Prerequisites: All generalist curriculum courses.

Offered: As needed, Fall

SW 634. Clinical Social Work with Substance Abuse and Addictive Behaviors. 3 Credits.
This course teaches the specialized practice social work student the theories and concepts of addiction. Students learn about the current research and approaches to counseling the chemically dependent client and/or family member, as well as the role of relevant systems, and how the addictive behavior affects these systems. The course emphasizes the application of social work values and ethics in the delivery of addiction services.

Prerequisites: All generalist curriculum courses.

Offered: As needed, Fall

SW 635. Clinical Social Work Evidence-Based Treatment With Children and Adolescents. 3 Credits.
This specialized elective course provides students with a framework for understanding evidence-based mental health treatment with children and adolescents. Students become familiar with the most commonly used EBTs in the field and gain an understanding of the obstacles inherent in moving clinical practice from research to real-world settings. Models presented cover a range of diagnoses with an emphasis on children who have experienced emotional trauma. Individual, family and group treatment are addressed.

Prerequisites: All generalist curriculum courses.

Offered: As needed, Fall

SW 636. Clinical Social Work in Relation To Death, Dying, Bereavement and Life-Threatening Illness. 3 Credits.
This specialized elective course provides a framework of knowledge, skills and values for culturally competent and responsive social work practice in helping clients who confront the issues of death and dying and life-threatening illnesses. A comparative, critically reflective approach to content is employed. Students explore experiences of clients dealing with these issues in relation to diversity of ethnicity or culture, age, gender, sexual orientation and social class.

Prerequisites: All generalist curriculum courses.

Offered: As needed, Fall

SW 640. Clinical Social Work Practice with Adult Trauma. 3 Credits.
This specialized clinical elective focuses on the conceptual theories of trauma from cognitive/behavioral, psychodynamic and attachment theory perspectives. Emphasis is on the role of gender, race, ethnicity and culture in individuals’ responses to trauma. Students apply diagnoses, assessment, psycho-education, stress management, affect regulation and emotional processing as core treatment components. The course includes application to selected groups, including adult survivors of complex PTSD such as sexual abuse, combat trauma and survivors of acute incident trauma.

Prerequisites: All generalist curriculum courses.

Offered: As needed, Spring

SW 698. Community-Based Service Learning Seminar. 3 Credits.

SW 699. Special Topics in Social Work. 3 Credits.
This course is offered to present a topic that is not part of the current course listings. It meets the curriculum standards of the MSW program for elective credit only.

Offered: As needed
