

TRANSFER OF CREDIT POLICY

Graduate course credit completed with a grade of B or better at other regionally accredited institutions prior to matriculation at Quinnipiac *may* be transferred into a graduate program at Quinnipiac. Consistent with State Department of Education policies, upon individual review the MAT program may accept up to 6 transfer credits completed with a grade of B- or higher.

The normal transfer credit limit for each graduate program is indicated below, although additional transfer credits may be considered on an individual basis. Requests for transfer of credit must be submitted to the appropriate graduate program director along with official transcripts from the institution(s) where the credits were earned. Ordinarily, transfer of credit is granted for courses demonstrated to be similar in content, level of instruction and objectives to courses within a student's graduate curriculum at Quinnipiac. Additional program-specific requirements are indicated below.

All MSN and DNP nursing programs will only consider transfer of course credit taken within the last five years. In addition, the Nurse Anesthesia program will only consider transfer credits of the nursing core essentials, not sciences or anesthesia courses. For the JD program, the maximum number of credits a student can transfer from another law school is 30.

Graduate level courses taken to complete a degree program at Quinnipiac may be applied to a second graduate degree. These courses must be part of the approved curriculum of the second degree. Further, a minimum of 15 credits of additional course work must be completed before the conferral of a second degree. Students in dual degree programs (combined undergraduate and graduate) may not transfer graduate course credit from another institution.
